

ALBUQUERQUE, -- Oct. 26, 1893.

From Wm. C. Davis
J. F. Taft went to Trinidad last night.
Hon. Pedro Perea came in yesterday
No. 3.
K. W. Johnson returned from Santa Fe
last night.

Maresco de lau went to Thompson
this morning.

C. H. Hall took passenger No. 2 for the
west last night.

Frank Saville is at the Highland from
Williams, Ariz.

Rev. Father Quete was a passenger for
Prescott last night.

Marcus Brunswick came down from
Las Vegas last night.

Mrs. J. H. Gould of New York was
guest of the El Paso for the season.

E. W. Spangler will take passengers at
Magdalena and Kelly for several days.

Park W. Hartman an El Paso traveling
man came to the south last night.

K. W. Johnson and wife arrived at the
Deseret Hospital yesterday afternoon.

Louise Kirby, a ministering Angel
was among the passengers from the south.

Willie Hunter, coal oil dealer, manager
of the Deseret, left for Chicago last night.

C. Schaefer came up from San Joaquin
yesterday. He is at the Atlantic awaiting
returning to San Joaquin.

T. N. Walker, getting another speech
yesterday in Santa Fe and remained home
on passenger No. 3.

Rev. W. E. Fouke, the new pastor of
the M. E. church south will arrive with
his family this evening.

Judge C. N. Sturtevant with his
wife and son, went north this
morning in the untried White plains
car attached to No. 3 passenger.

J. M. Moore left last night for his post
of duty at Williams, leaving his wife in
a visit with his parents in the city.

Joseph Marlowe of Chicago who is to
work on the refrigeration house at the
depot has passed at the Highland.

Rev. Fathers Marton and Kelly of
New York who have been visiting here a
few days, left for the coast yesterday.

K. W. Blackwell of Winslow returned
last night to the Highland from Denver
where he went on a visit one week ago
yesterday.

A. M. Berger, treasurer of Apache
county, stopped at the European hotel
last night and left on No. 3 passenger
for the east this morning.

May Schulte, Silver City's big mer-
chant came down from Denver on No. 3
passenger last night, rested at the Euro-
pean and went south on No. 3 this morn-
ing.

Sol Luria and wife and Mrs. Lizzie
Deyle came up from the south last even-
ing, and after a pleasant visit with
friends returned home on this morning's
freight.

Rev. Fathers J. A. Stephan and McCon-
nel, of Washington, D. C., and P. Bour-
gier, of Tucson, Ariz., came in from the
north last night and went west this
morning.

As. S. Mairi who has been combining
business with pleasure in the city for a
few days, left for his home in the Gulf
yesterday morning going by way of
Corrales.

The Berger property, lot 4, Block 2,
Belvoir addition, advertised under exec-
ution, was sold this morning by Sheriff
T. S. Hubbard and bid in by G. L. Athier
for \$400.

A. A. Spanish, Cheyenne, Wyo., W. A.
Denny, Chicago, and W. H. Liles, the
Sedona county stockmen, came in on last
night's train and talked cattle on the
European hotel.

W. G. Franklin who is much interest-
ed in mining properties in southern New
Mexico, including the Hillsboro district,
and who was here to confer with J. F.
Saint, boarded this morning's train for
the north.

Dr. and Mrs. Huine, who stand promi-
nent before the American people as
seance performers, are in the city and
have arranged for entertainments that
will mystify even the knowing ones who
will attend.

W. H. Morton, of Leavenworth, Kan.,
came up from S. J. Peters from the Mag-
dalena country last night with a load of
cattle destined for Kansas City. The
gentleman slept at the Highland and
met his brother at the depot last
evening.

Cattle Inspector, Mrs. Fowler left for
El Paso on No. 3 this morning and will
remain there till Nov. 1 to inspect sever-
al large shipments of cattle from northern
Mexico into this country. Yesterday
12,000 head were loaded into 400 trucks
at Ojo Caliente, 100 miles south, and
Mr. Fowler will be there on their arrival
across the line.

If the people of this country do not
wake up to the danger, in a few years
more there will be no such thing as free-
dom of speech among us. Already men
are forced to be careful about expressing
their opinions, and there is a marked
tendency in the courts towards restricting
the freedom of the press. The prin-
cipal trouble with us is that we have got
entirely too much law of the wrong sort.
A general revision should be in order.

The state of Massachusetts appropri-
ated \$100,000 at its last session for the
construction of highways on the state
system. There are 25,000 miles of roads
in the state outside of the cities. France
has 180,000 miles of roads, 45,000 of
which are under control of the state.

EARTH CRACKS OPEN.

Strains and Alarming Disaster in Bohemia.

A remarkable disaster has occurred
in the Bohemian town of Brno in
northeastern Bohemia, in many ways
surpassing the recent disastrous
earthquake of San Francisco. The shock
was so violent that it caused
the death of hundreds in Carlsbad
and other towns, while the
houses were broken in pieces.

There were no fires on Sunday and a
pleasure trip was made to Olomouc, Chas-
trop, and other towns, but the tremor
was so violent that the windows were
shattered and the walls cracked.

At 10:30 a. m. the first shock was
so violent that it caused the windows
to shatter and the walls to crack.

At 11:30 a. m. the second shock was
so violent that it caused the windows
to shatter and the walls to crack.

At 12:30 a. m. the third shock was
so violent that it caused the windows
to shatter and the walls to crack.

At 1:30 a. m. the fourth shock was
so violent that it caused the windows
to shatter and the walls to crack.

At 2:30 a. m. the fifth shock was
so violent that it caused the windows
to shatter and the walls to crack.

At 3:30 a. m. the sixth shock was
so violent that it caused the windows
to shatter and the walls to crack.

At 4:30 a. m. the seventh shock was
so violent that it caused the windows
to shatter and the walls to crack.

At 5:30 a. m. the eighth shock was
so violent that it caused the windows
to shatter and the walls to crack.

At 6:30 a. m. the ninth shock was
so violent that it caused the windows
to shatter and the walls to crack.

At 7:30 a. m. the tenth shock was
so violent that it caused the windows
to shatter and the walls to crack.

At 8:30 a. m. the eleventh shock was
so violent that it caused the windows
to shatter and the walls to crack.

At 9:30 a. m. the twelfth shock was
so violent that it caused the windows
to shatter and the walls to crack.

At 10:30 a. m. the thirteenth shock was
so violent that it caused the windows
to shatter and the walls to crack.

At 11:30 a. m. the fourteenth shock was
so violent that it caused the windows
to shatter and the walls to crack.

At 12:30 a. m. the fifteenth shock was
so violent that it caused the windows
to shatter and the walls to crack.

At 1:30 a. m. the sixteenth shock was
so violent that it caused the windows
to shatter and the walls to crack.

At 2:30 a. m. the seventeenth shock was
so violent that it caused the windows
to shatter and the walls to crack.

At 3:30 a. m. the eighteenth shock was
so violent that it caused the windows
to shatter and the walls to crack.

At 4:30 a. m. the nineteenth shock was
so violent that it caused the windows
to shatter and the walls to crack.

At 5:30 a. m. the twentieth shock was
so violent that it caused the windows
to shatter and the walls to crack.

At 6:30 a. m. the twenty-first shock was
so violent that it caused the windows
to shatter and the walls to crack.

At 7:30 a. m. the twenty-second shock was
so violent that it caused the windows
to shatter and the walls to crack.

At 8:30 a. m. the twenty-third shock was
so violent that it caused the windows
to shatter and the walls to crack.

At 9:30 a. m. the twenty-fourth shock was
so violent that it caused the windows
to shatter and the walls to crack.

At 10:30 a. m. the twenty-fifth shock was
so violent that it caused the windows
to shatter and the walls to crack.

At 11:30 a. m. the twenty-sixth shock was
so violent that it caused the windows
to shatter and the walls to crack.

At 12:30 a. m. the twenty-seventh shock was
so violent that it caused the windows
to shatter and the walls to crack.

At 1:30 a. m. the twenty-eighth shock was
so violent that it caused the windows
to shatter and the walls to crack.

At 2:30 a. m. the twenty-ninth shock was
so violent that it caused the windows
to shatter and the walls to crack.

At 3:30 a. m. the thirty-first shock was
so violent that it caused the windows
to shatter and the walls to crack.

At 4:30 a. m. the thirty-second shock was
so violent that it caused the windows
to shatter and the walls to crack.

At 5:30 a. m. the thirty-third shock was
so violent that it caused the windows
to shatter and the walls to crack.

At 6:30 a. m. the thirty-fourth shock was
so violent that it caused the windows
to shatter and the walls to crack.

At 7:30 a. m. the thirty-fifth shock was
so violent that it caused the windows
to shatter and the walls to crack.

At 8:30 a. m. the thirty-sixth shock was
so violent that it caused the windows
to shatter and the walls to crack.

At 9:30 a. m. the thirty-seventh shock was
so violent that it caused the windows
to shatter and the walls to crack.

At 10:30 a. m. the thirty-eighth shock was
so violent that it caused the windows
to shatter and the walls to crack.

At 11:30 a. m. the thirty-ninth shock was
so violent that it caused the windows
to shatter and the walls to crack.

At 12:30 a. m. the forty-first shock was
so violent that it caused the windows
to shatter and the walls to crack.

At 1:30 a. m. the forty-second shock was
so violent that it caused the windows
to shatter and the walls to crack.

At 2:30 a. m. the forty-third shock was
so violent that it caused the windows
to shatter and the walls to crack.

At 3:30 a. m. the forty-fourth shock was
so violent that it caused the windows
to shatter and the walls to crack.

At 4:30 a. m. the forty-fifth shock was
so violent that it caused the windows
to shatter and the walls to crack.

At 5:30 a. m. the forty-sixth shock was
so violent that it caused the windows
to shatter and the walls to crack.

At 6:30 a. m. the forty-seventh shock was
so violent that it caused the windows
to shatter and the walls to crack.

At 7:30 a. m. the forty-eighth shock was
so violent that it caused the windows
to shatter and the walls to crack.

At 8:30 a. m. the forty-ninth shock was
so violent that it caused the windows
to shatter and the walls to crack.

At 9:30 a. m. the fifty-first shock was
so violent that it caused the windows
to shatter and the walls to crack.

At 10:30 a. m. the fifty-second shock was
so violent that it caused the windows
to shatter and the walls to crack.

At 11:30 a. m. the fifty-third shock was
so violent that it caused the windows
to shatter and the walls to crack.

At 12:30 a. m. the fifty-fourth shock was
so violent that it caused the windows
to shatter and the walls to crack.

At 1:30 a. m. the fifty-fifth shock was
so violent that it caused the windows
to shatter and the walls to crack.

At 2:30 a. m. the fifty-sixth shock was
so violent that it caused the windows
to shatter and the walls to crack.

At 3:30 a. m. the fifty-seventh shock was
so violent that it caused the windows
to shatter and the walls to crack.

At 4:30 a. m. the fifty-eighth shock was
so violent that it caused the windows
to shatter and the walls to crack.

At 5:30 a. m. the fifty-ninth shock was
so violent that it caused the windows
to shatter and the walls to crack.

At 6:30 a. m. the sixtieth shock was
so violent that it caused the windows
to shatter and the walls to crack.

At 7:30 a. m. the sixtieth shock was
so violent that it caused the windows
to shatter and the walls to crack.

At 8:30 a. m. the sixtieth shock was
so violent that it caused the windows
to shatter and the walls to crack.

At 9:30 a. m. the sixtieth shock was
so violent that it caused the windows
to shatter and the walls to crack.

At 10:30 a. m. the sixtieth shock was
so violent that it caused the windows
to shatter and the walls to crack.

At 11:30 a. m. the sixtieth shock was
so violent that it caused the windows
to shatter and the walls to crack.

At 12:30 a. m. the sixtieth shock was
so violent that it caused the windows
to shatter and the walls to crack.

At 1:30 a. m. the sixtieth shock was
so violent that it caused the windows
to shatter and the walls to crack.

At 2:30 a. m. the sixtieth shock was
so violent that it caused the windows
to shatter and the walls to crack.

At 3:30 a. m. the sixtieth shock was
so violent that it caused the windows
to shatter and the walls to crack.

At 4:30 a. m. the sixtieth shock was
so violent that it caused the windows
to shatter and the walls to crack.

At 5:30 a. m. the sixtieth shock was
so violent that it caused the windows
to shatter and the walls to crack.

At 6:30 a. m. the sixtieth shock was
so violent that it caused the windows
to shatter and the walls to crack.

At 7:30 a. m. the sixtieth shock was
so violent that it caused the windows
to shatter and the walls to crack.

At 8:30 a. m. the sixtieth shock was
so violent that it caused the windows
to shatter and the walls to crack.

At 9:30 a. m. the sixtieth shock was
so violent that it caused the windows
to shatter and the walls to crack.

At 10:30 a. m. the sixtieth shock was
so violent that it caused the windows
to shatter and the walls to crack.
